(57) **Abstract**: The invention relates to a pharmaceutical composition comprising a compound preventing EthR from binding to the *ethA* promoter, for example a compound of formula 1 wherein R^1 is optionally substituted phenyl or optionally substituted pyridyl; R^2 is $(CH_2)_n$ wherein n is 1, 2, 3 or 4; R^3 is $CH_3(CH_2)_m$ wherein m is 0, 1, 2 or 3; R^3 is 0, S, NH, N(CH₃) or CH₂; and R^3 is 0, S or NH; in particular 2-phenylethyl butyrate, and a thioamide or thiourea of formula 2 wherein R^4 is optionally substituted phenyl, optionally substituted pyridyl, optionally substituted indolyl, R^3 or R^3 or R^3 or R^3 and substitutents R^3 to R^3 have the meanings indicated in the description, in particular ethionamide. The pharmaceutical composition is useful, e.g., in the treatment of multidrug-resistant tuberculosis.

INTERNATIONAL SEARCH REPORT

Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)							
This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:							
Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely:							
Claims Nos.: because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:							
3. Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).							
Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)							
This International Searching Authority found multiple inventions in this international application, as follows:							
see additional sheet							
As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.							
2. As all searchable claims could be searched without effort justifying an additional fees, this Authority did not invite payment of additional fees.							
3. As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:							
4. No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.: see additional sheet(s)							
The additional search fees were accompanied by the applicant's protest and, where applicable, the payment of a protest fee. The additional search fees were accompanied by the applicant's protest but the applicable protest fee was not paid within the time limit specified in the invitation. No protest accompanied the payment of additional search fees.							

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. claims: 1-18

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of tuberculosis and "related diseases", selected from atypical mycobacteriosis, hot tub lung and chronic lung disease and method of screening for compounds "preventing EthR from binding to the ethA promoter".

2. claim: 16

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of leprosy.

3. claim: 16

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of buruli-ulcer disease.

4. claim: 16

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of Johne's and Crohn's disease.

5. claim: 16

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of lady Windermere's syndrome.

6. claim: 16

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of post-traumatic wound infections.

7. claim: 16

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of post-tympanostomy.

8. claim: 16

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of tube otorrhea.

9. claim: 16

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of disseminated cutaneous diseases.

10. claim: 16

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of Acinetobacter baumanii caused infections.

11. claim: 16

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of pharyngitis.

12. claim: 16

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of impetigo.

13. claim: 16

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of erysipelas.

14. claim: 16

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of cellulitis.

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

15. claim: 16

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of necrotizing fascitis.

16. claim: 16

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of scarlet fever.

17. claim: 16

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of toxic shock septicaemia.

18. claim: 16

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of peritonitis.

19. claim: 16

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of ophthalmitis.

20. claim: 16

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of diarrhoea.

21. claim: 16

Composition comprising "a compound preventing EthR from binding to the ethA promoter" and a thioamide or thiourea and the use thereof for the treatment of splenic fever.
